// WHO WE ARE

Built for the AI-first era

evoAI is an AI consultancy that partners with ambitious enterprises to integrate, scale, and future-proof their technology. A lean, focused team with big ambitions and a genuine commitment to every client's success.

Just Getting Started

A lean team with big ambitions, delivering AI solutions that genuinely make a difference for every client.

Partnership First

We work alongside clients as committed partners — not vendors — invested in your long-term success.

Something New Coming

Alongside consultancy, we're building a new AI product designed to transform how teams operate. 2028.

// WHAT WE DO

AI Services That Move Fast

From strategy to deployment — covering every layer of your AI journey.

Strategy

AI Strategy & Consulting

We identify where AI creates the most value in your business and build a clear, actionable roadmap — fast.

Automation

Intelligent Automation

Replace repetitive workflows with smart AI agents that learn, adapt, and operate autonomously, saving time.

Analytics

Predictive Analytics

Turn your data into accurate forecasts — demand, churn, pricing, risk — for faster, better decisions.

// WHO WE WORK WITH

Ambitious SMEs & Growing Enterprises

Cross-sector experience. Fresh perspective is part of the value.

✓ Know AI can help
But aren't sure where to start or what to prioritise.

✓ Manual processes
Repetitive tasks are slowing your team down every day.

✓ Valuable data unused
You're not yet using your data to make better decisions.

✓ Want a lean partner
Not a bloated agency with slow turnarounds and overhead.

// ENGAGEMENT OPTIONS

Three Ways to Work With Us

AI Discovery Sprint
2 weeks
A focused discovery to identify where AI can have the biggest impact. Walk away with a prioritised roadmap you can act on immediately.

From \$5k / fixed fee

MOST POPULAR

Automation Pilot
4–6 weeks
Take one high-value process and automate it end-to-end — proving ROI before committing to a wider rollout.

// TECHNICAL CAPABILITIES

Under the Hood

Lean, practical, and focused on what actually delivers value.

Core AI	Automation & Intelligence	Data & Deployment
<p>LLM Integration Embed OpenAI or Anthropic models — internal chatbots, drafting, summarisation at scale.</p>	<p>AI Agent Development Autonomous agents completing multi-step tasks and triggering the right workflows.</p>	<p>Predictive Modelling Forecast churn, demand spikes, pricing and risk with custom ML models.</p>
<p>RAG & Knowledge Retrieval AI that searches and reasons over your own documents and data instantly.</p>	<p>Document Intelligence Extract and structure data from invoices, contracts, and unstructured files.</p>	<p>Data Pipeline Design Clean, connect, and move your data reliably so AI models have accurate inputs.</p>
	<p>Workflow Automation Connect AI decisions into your existing tools — CRM, ERP, support desk — automatically.</p>	<p>Cloud & API Integration Deploy on AWS, Azure, or GCP and plug into your existing stack with no disruption.</p>

// SECURITY & DATA HANDLING

Your Data, Handled With Care

<p>✓ Client data is never used for model training or shared with third parties</p>	<p>✓ Private AI deployments supported for sensitive environments</p>
<p>✓ On-prem or VPC architectures available for full data isolation</p>	<p>✓ NDA-first engagement — confidentiality agreed before any project begins</p>

// AI IMPACT — CASE STUDIES

Real Results for Real Businesses
